PROFESSIONAL WORK EXPERIENCE

Decision Intelligence Analyst

Dec 2021 — Apr 2022

Dufil Prima Foods Plc

Lagos, NGA

Handling Business Intelligence tasks and Process Improvement Strategy for the Head of Continuous Improvement & Sustainability and the C-suite at Group Corporate HQ

- Analysed financial and operational data to indicate areas of interest to process owners and the Six Sigma team at factories.
- Leading feasibility studies and entry strategy for alternative business opportunities in the Nigerian agriculture, consumer, and financial markets
- Engaged in multiple internal improvement projects assigned by the Business Heads and CXOs and led the new business search thinktank

Operations Manager, Warehousing and Logistics

Jan 2021 — Nov 2021

Dufil Prima Foods Plc

Kaduna, NGA

Managed a department of 140+ personnel to achieve seamless warehousing operations and better integration with other departments within the Northern Noodles factory and the Corporate Logistics Team

- Introduced Kanban concepts in document flow tracking between the QA, Production Planning and Finance departments improving OTDIF by **84%**
- Completed ISO 22000 (FSMS) and ISO 9001:2015 (QMS) audits with **zero** non-conformance and admonition on the existing improvements on online reporting and stock traceability
- Reduced Warehouse/Logistics downtime from **0.85%** to **0.42%** YTD in 8 months resulting in higher capacity utilization and throughput
- Reduced Turnaround Time for RM, PKG and FG trucks by **57%** through ETA tracking and SMED implementation in Park Management in the factory and at the trailer park.
- Restructured the department and retrained associates leading to improved resource utilization, comprehensive inventory monitoring and transition from Orion ERP to SAP

Data Scientist, Industrial Optimization

Dec 2018 — Dec 2020

Dufil Prima Foods Plc

Lagos & Kaduna, NGA

Black Belt Project Facilitator focused on process improvement endeavors in production settings at Raffles Oil LFTZ Ent. & Northern Noodles Plc, subsidiaries of Dufil Prima Foods Plc

- Facilitated a project on Noodle Block Fat Content reduction for Indomie, Minimie and Mimee SKUs from **17.0%** to **16.5%** and provided a basis for alternative solutions for precise material balance for critical process raw materials using Expanded MSA.
- Anchored the development of a low-code software for transition to paperless reporting in three factory locations (Raffles, Insignia & Northern Noodles) reducing the consumables cost by **95%** and facilitating data collation for quicker process analytics
- Handled a DMAIC project on laminate variance for low-volume Power Oil SKUs reducing raw material wastage from a baseline of **3.28%** to **1.3%** in six months, resulting in **\$53,900** in the year of project implementation and **\$88,800** p.a. afterwards
- Managed a Lean project on packaging reliability for high-volume Power and Emperor Oil SKUs resulting in the reduction of product leakage from **3.2%** to **1.3%** in six months with estimated savings of **\$7,500** p.a.
- Scheduled and conducted the training of over 40 factory staff on 5S, Lean Six Sigma and on-the-job technicalities while mentoring newly recruited Lean Six Sigma Facilitators in different factory locations on their improvement projects

EDUCATION

Carnegie Mellon University

Pennsylvania, USA

Master of Science, Engineering Artificial Intelligence (with Distinction)

Aug 2023 — May 2025

- Cumulative GPA: 3.75/4.0 | Mastercard Foundation Scholarship
- Relevant Coursework: On-Device Machine Learning, Deep Learning, Machine Learning for Engineers, AI System Design, Embedded System Development, Systems Software Engineering, Mobile Big Data Analytics & Mgt, *Cloud Computing**

- Cumulative GPA: 4.74/5.0 | Top 10% of ChE Class, Society of Petroleum Engineers Star Scholarship, MTN Foundation Scholarship, NNPC Agbami Professional Scholarship, National Merit Award, University Endowment Award
- Relevant Coursework: Process Optimization, Process Dynamics & Control, Principles of Plant Design, Industrial Chemistry, Reaction Engineering, Polymer Processing, Biochemical Engineering, Environmental Pollution Engineering

PROJECTS AND PUBLICATIONS

- *M. Awojide, E. Aiken. Inflation Nowcasting with Online Search Volume Data — Preprint*
- *D. Nsanzimfura, C. Kwizera, G. Igwegbe, M. Awojide. SCADAgric: Agentic Farm Monitoring — Repository*
- *G. Igwegbe, M. Awojide, A. Adetunji. Real-World Federated Learning on Edge Devices with NVFLARE — Deep Learning Indaba Poster*

OTHER WORK EXPERIENCE

Graduate Teaching Assistant

EAI Project Methods

Aug 2025 — Oct 2025

Kigali, RW

Assisted students master essential elements of AI engineering like stakeholder analysis, system requirements gathering, prototyping, Agile project planning, and CI/CD by guiding hands-on assignments, clarifying core project methodologies, and supporting the final integration project.

Graduate Teaching Assistant

EAI System Design

Jan 2025 — Apr 2025

Kigali, RW

Advised 40+ graduate students on course content involving the setup and use of resource-constrained edge devices (Raspberry Pi and Arduino Nano BLE) for TinyML tasks and ModelOps (model performance analysis and maintenance) exercises using AWS, Docker, Flask and Plotly Dash

Product Research Assistant

Embedded Systems Lab, CMU-Africa

May 2024 — Aug 2024

Kigali, RW

Developed a design strategy using the IDDOV (DfX) framework for a low-cost multimodal data acquisition device, conducting Kano surveys in Africa and the USA to identify researcher needs, building a Kano model to define MVP features, and applying QFD to determine core technical specifications and guide SBC/MCU selection within a tiered product strategy.

EXTRACURRICULAR ACTIVITIES

Student Research Interviewer, Afretec Network

Jan 2024 — Apr 2024

- Engaged with 13 Principal Investigators from 11 multi-institutional projects across partner universities through virtual interviews to gather relevant information on the progress and goals of their projects

TRAINING AND CERTIFICATIONS

Design for Six Sigma (DFSS) Training, Benchmark X 360

Jan 2021

Lean Six Sigma Black Belt, Benchmark X 360

Feb 2020

- Batch Topper, LSSBB Mumbai ‘20 Cohort

SKILLS

- **Application:** Minitab, Quality Companion, Google AppSheet, Jira, Trello, Linear, MS Planner, MS Excel
